

## **Straight Seam Welded Pipe Flat Head Chamfering Machine**

### **I. Introduction**

Straight seam welded pipe flat head chamfering machine is used to crew cut the pipe end of straight seam welded pipe or seamless steel pipe and finish the edges. Assisted with the profile chamfering knife, the finished edges are homogeneous and beautiful. Its advantages are full auto working mode, high efficiency, and stable, reliable working.

### **II. Main project and clients**

No.	Equipment name	Clients	Remark
1	Φ165×8 flat head chamfering machine (double station)	Thailand ABLE company	Exported project
2	Φ219~377 flat head chamfering machine	Hengshui Jinghua pipe manufacturing Co., Ltd	
3	Φ42~114 flat head chamfering machine	Tianjin jinghai Xianbolai industrial and trade Co., Ltd	
4	Φ168 flat head chamfering machine	Wuxi Jiahua	
5	Φ114~273 flat head chamfering machine	Tianjin Zongshun industrial and trade Co., Ltd	
6	Φ60~159 flat head chamfering machine	Tianjin Lianzong steel pipe Co., Ltd	
7	Φ168~426 flat head chamfering machine	Haicheng pipe Co., Ltd	
8	Φ219~508 flat head chamfering machine	Korea steel pipe Co., Ltd	
9	Φ168~426 flat head chamfering machine	Shandong Taifeng steel pipe Co., Ltd	

### III. Production process

Loading pipe-connecting pipe-aligning the left end-delivering the pipe-clamping-left end flat head chamfering-loosening the clamp-carrying the pipe-aligning the right end- clamping -right end flat head chamfering-loosening the clamp-exist the pipe

### IV. Available types

No	Model	Specification(mm )	Length(m)	Capacity(Kw)	Area(M <sup>2</sup> )
1	ZFPT-100	Φ50~Φ114	6~12	70	4×22
2	ZFPT-160	Φ60~Φ168	6~12	80	4×22
3	ZFPT-220	Φ89~Φ219	6~12	60	5×22
4	ZFPT-350	Φ140~Φ355	8~12	70	5×22
5	ZFPT-400	Φ168~Φ426	8~12	90	5×22
6	ZFPT-500	Φ219~Φ508	8~12	100	5×23
7	ZFPT-600	Φ219~Φ610	8~12	150	5×23
